# MIXSON'S FIELD SEEDS

All selected, re-cleaned and packed in strong burlaps, without charge. Some high priced Clovers and Grasses are packed in seamless cotton bags, which are charged extra and are non-returnable. Terms on Field Seeds are Net Cash on receipt and these quotations are subject to change.

LIST NO. 2752. August 9, 1927.

## HAIRY VETCH

Stocks of Hairy Vetch are getting very scarce. The market is very firm with indications of advances. Stocks in Europe are cleaned up, and seed from the next crop will reach us too late for sowing this Fall. We are importers and large dealers. Correspondence invited.

## MIXSON'S PASTURE MIXTURE

A number of very excellent Grasses and Clover go into this mixture. A cheaper mixture can of course be made by using a larger percentage of lower priced grasses, but it will not give the same results. Our principle is to not change the formula to come down to a price. If desired and so stated, the Clover can be packed separately so that it can be inoculated. Use Farmogerm. Through preparation is essential to best results. Sow 30 pounds to Acre.

In 100 lb. lots, 22c per lb; 25lbs. at 24c; less quantity at 26c.

## LARGE BUYERS, ATTENTION

We are ready at all times to figure on large orders, and will give them the benefit of our closest prices. Write us anytime, stating quantities and deliveries wanted, and let us quote delivered prices. Most of our Imported Seeds are landed at Charleston, and our freight to most Southern points will figure much lower than from other Importing points. Freight rates gladly furnished. Correspondence welcomed.

## SEED RYE

All from acclimated stocks only, the locality of growth being closely investigated by us. We do not handle Northern or Western Rye, as we know it will not give results. Remember too, that because Rye is bought at a certain point it does not necessarily follow that the Rye is grown there, because trains runs both in as well as out.
